github.com/mart271 | <https://www.linkedin.com/in/mark-tagab-25799218b/>

PROFILE

Third-year Computer Science student with hands-on experience in machine learning-based intrusion detection, network security, and full-stack web development. Cisco-certified in cybersecurity and AI, with a practical, problem-solving mindset. Eager to apply technical skills in a professional IT environment and grow within a dynamic, technology-driven organization.

EDUCATION

Lyceum of the Philippines University – Cavite

2023 – Present

Bachelor of Science in Computer Science (Third Year, Ongoing) — Expected May 2027

Relevant Coursework: Data Structures, Algorithms, Network Security, Machine Learning, Web Development

PROJECTS

ML-Enhanced Intrusion Detection System

2025

- Built a Python and scikit-learn IDS pipeline trained on CICIDS2017 data, ingesting Suricata logs for real-time threat classification through a Flask dashboard.
- Cut the false-positive rate by roughly 30% compared with a rule-based baseline.

VoteSecure — Online Voting Platform

2024

- Designed a secure PHP and MySQL voting platform with role-based authentication, encrypted session management, and an admin dashboard for election lifecycle management and results export.

Web-Based Manga Content Platform

2024

- Built a PHP and MySQL content platform with tiered user and admin access control and full CRUD for series and chapter management.

IDS Module Extension

2024

- Developed plug-in detection modules for an existing IDS to flag anomalous network activity without modifying the core engine.

LEADERSHIP & EXPERIENCE

Treasurer — Student Government, CITCS

2025 – 2026

College of Information Technology and Computer Science, Lyceum of the Philippines University – Cavite

- Managed departmental funds, maintained financial records, and presented periodic budget reports to the student council.
- Coordinated with committee heads to organise academic and student events within budget constraints.

TECHNICAL SKILLS

Languages: Python, PHP, HTML/CSS, JavaScript, SQL, Kotlin

Tools & Frameworks: Git, MySQL, Suricata, scikit-learn, pandas, Flask, React Native, Flutter

Domains: Intrusion Detection, Network Security, Machine Learning, Web & Mobile Development

CERTIFICATIONS

Introduction to Cybersecurity — Cisco

Apr 2026

Introduction to Modern AI — Cisco

Feb 2026

Introduction to Networking Basics — Cisco

May 2026

IoT Bootcamp — ACube Technologies / LPU Cavite

Dec 2025

Python Essentials 1 & 2 — Cisco

Jan & Jun 2024
